# SUMMER

## Reading

Summer reading lists are not arranged by grade level. There is a picture book list and a chapter book list.

Each has 40 titles of recently released or soon-to-be released titles. It is my philosophy that **picture books are for any age**. The chapter books selected are written primarily for students in the **age range of 8 to 13**.

Remember, you can always read a book to or with your child if it is too advanced for your child to read alone. Even older students like to be read to and can benefit from reading aloud with adults.

Book covers on the color versions of reading lists are **hyperlinked** to summaries on Amazon. These are not affiliate links. They are simply there to allow for easy access to summaries, ratings, reviews, and publication information.

Use the website **Common Sense Media** to determine if the content of a book is right for your child.

Remember to let your child choose what to read. Create a summer schedule that allows for routine reading time daily.

Make a copy of the interactive Google Slides by clicking **here**.

Happy summer!
